Local Company Recognized by US Department of Commerce for Export Achievement

Research Triangle Park, NC, (May 18, 2010) – Troxler Electronic Laboratories, Inc., the global leader in testing and measurement equipment for the construction industry, has been awarded the Export Achievement Certificate from the US Department of Commerce for excellence in international performance. This is the second time that Troxler Electronic Labs has been honored by the US Department of Commerce.

“Troxler has been passionate about our international presence since my father’s first export to Eastern Europe in 1969, “says President William F. Troxler, Jr., son of founder William F. Troxler. He continues, “These efforts have carried us through the difficult times this industry has experienced in the United States. I am proud of our work internationally, not only in building the Troxler brand and being the market leader throughout the world, but in our almost 30 year commitment to the International Road Federation. A Troxler has been an active IRF board member since the early 1980s. Being recognized for our hard work in developing an export market is truly an honor. On behalf of the entire company, I thank the US Department of Commerce for the recognition.”

Troxler’s international footprint includes sales, service and repair throughout the world via a very large, worldwide distribution network. “Our international market continues to be very strong, giving us the ability to both sustain and create jobs here in North Carolina. Being recognized by the US Department of Commerce is a great honor.” comments Eric Dunkelberg, General Manager.

A ceremony to award the Export Achievement Certificate to Troxler Electronic Laboratories will take place at Troxler headquarters at 3008 E Cornwallis Road in Research Triangle Park, NC, on Wednesday, May 19, 2010, at 2 pm. Representatives from the United States Department of Commerce will be on hand to make the presentation to Troxler Electronic Labs. Representatives include Ro Khanna, Deputy Assistant Secretary, US Department of Commerce/International Trade Administration, Joseph Hanley, Mid-Atlantic Regional Director, US Commercial Service/International

Trade Administration and Greg Sizemore and Sandra Edwards, Directors, US
Department of Commerce/International Trade Administration, Charlotte and Raleigh.

About Troxler Electronic Laboratories, Inc.:

Founded in 1958, Troxler Electronic Laboratories, Inc. is dedicated to developing, manufacturing and servicing precision quality control and measurement equipment for the worldwide highway and construction industry. Troxler's comprehensive portfolio of field products includes nuclear gauges for quality control of soils, asphalt, aggregates and concrete as well as non-nuclear gauges for quality control of asphalt. Troxler's laboratory products include gyratory compactors, infrared ignition ovens, nuclear asphalt content gauges, and much more. With the highest quality instrumentation backed by the most reliable customer service and support around the world, Troxler continues to be the most trusted name in quality control and quality assurance for the construction industry. Troxler has sales and service locations across the United States and throughout the world with company owned domestic and international locations, Troxler Authorized service and repair locations, and an extensive global distribution network. All trademarks are the property of their owners. Additional information about Troxler products and services can be found by accessing the Troxler World Wide Web site at www.troxlerlabs.com or by calling 1.877.TROXLER (1.877.876.9537) or +1.919.549.8661, if outside the USA.

About International Road Federation

The International Road Federation is based in Washington, DC, and Geneva, Switzerland, and promotes safe and efficient transportation throughout the world. For additional information about the International Road Federation, please visit www.irfnet.org.
