Re: Troxler Gauge Disposal Policy

To Whom It May Concern:

Troxler is authorized to receive nuclear gauges for disposal under radioactive material license number 032-0182-1 issued by the State of North Carolina.

Nuclear gauges may be returned to Troxler for source removal and disposal subject to the following conditions:

1. No gauge or source will be accepted without a Returned Goods Authorization from Troxler.
2. Leaking sources will not be accepted.
3. Acceptance of damaged gauges depends on the feasibility of safely removing the sources. Troxler reserves the right to return any gauge to the customer if removal of the sources is deemed impractical for any reason.
4. Sources for which a licensed disposal pathway is not available will not be accepted.

Troxler will provide an acknowledgement of receipt to the customer upon acceptance of a source. Please contact Troxler for current disposal pricing and availability information.

Sincerely,

Stephen A. Browne
Corporate Radiation Safety Officer
